

Motivation

The diagram illustrates a network of datasets connected to a central hub, DBpedia. The datasets are arranged in a circular pattern around the central hub. The central hub is labeled 'DBpedia' with a green 'updated' tag. The datasets are connected to the central hub by arrows. Some datasets are highlighted with orange 'NEW!' tags: Audio-Scrobler, qoos, and Flickr exporter. Other datasets include: Music-brainz, BBC Later + TOTP, BBC John Peel, Magna-tune, ECS Southampton, Fresh-meat, Sem-Web-Central, Flickr exporter, SIOC profiles, Onto-world, SW Conference Corpus, Open-Guides, RDF Book Mashup, DBLP Berlin, lingvoj, flickr wrappR, Project Gutenberg, W3C WordNet, Open Cyc, Euro-stat, Wiki-company, World Fact-book, US Census Data, Geo-names, Jamendo, and DBLP Hannover. A large black arrow points from the top right towards the center of the diagram.
